NOTES TO USERS
The map to be used for the National Flood Insurance Program is based on an analysis of flood-risk information provided by local governments. This analysis is subject to change as new information becomes available. The floodway is the channel of a stream plus any adjacent floodplain areas that must be kept free of obstructions for flood protection. This floodway is the area that may be inundated by the 1% annual chance flood (100-year flood). The floodway is defined as the area of a base floodplain that is: (1) outside the 0.2% annual chance floodplain boundary; and (2) outside the Special Flood Hazard Area (SFHA) that are subject to flooding from any source and that must be protected from the 1% annual chance or greater flood.

Flood elevations shown on the FIRM are based on the National Geodetic Vertical Datum of 1929 (NGVD29). The elevation information shown on this FIRM was provided in digital format by the National Geodetic Survey at 111° 22' 30" to conform to these new stream channel configurations. As a result, the Flood Elevations determined for these areas may have been adjusted to conform to these new stream channel configurations. As a result, the Flood Elevations determined for these areas may have been adjusted to conform to these new stream channel configurations.

To obtain current elevation, description, and/or location information for any community, contact your insurance agent or call 1-800-358-9620 and its website at http://www.msc.fema.gov/.

To determine if flood insurance is available in this community, contact your insurance agent or call 1-800-358-9620 and its website at http://www.msc.fema.gov/.

The Federal Emergency Management Agency (FEMA) is responsible for managing the National Flood Insurance Program. The jurisdictional community is responsible for maintaining an updated community floodplain management program and floodway which, at a minimum, complies with the floodway determined on this FIRM.

Effective date of countywide FIRM panel: 4/13/2004

Map Number:

Contact the community for a copy of the jurisdictional floodplain management ordinance.

LEGEND

SPECIAL FLOOD HAZARD AREAS (SFHAs) SUBJECT TO INUNDATION BY THE 1% ANNUAL CHANCE FLOOD

Zone V: Areas of 0.2% annual chance floodplain boundary
Zone AH: Coastal flood zone with velocity hazard (wave action); Base Flood Elevations determined.
Zone AO: Coastal flood zone with velocity hazard (wave action); no Base Flood Elevations determined.
Zone AR: Coastal flood zone with velocity hazard (wave action); no Base Flood Elevations determined. Area to be protected from 1% annual chance flood by a Federal flood protection system under construction; no Base Flood Elevations determined.
Zone AO-AR: Coastal flood zone with velocity hazard (wave action); Base Flood Elevations determined. Area to be protected from 1% annual chance flood by a Federal flood protection system that was subsequently decertified; Zone AO-AR has Base Flood Elevations determined.
Zone AE: Coastal flood zone with velocity hazard (wave action); Base Flood Elevations determined. Area to be protected from the 1% annual chance or greater flood.
Zone A: Area to be protected from the 1% annual chance or greater flood by a flood control system that was subsequently decertified. Zone A has Base Flood Elevations determined.
Zone A1: Coastal flood zone with velocity hazard (wave action); no Base Flood Elevations determined. Area to be protected from the 1% annual chance or greater flood by a flood control system that was subsequently decertified. Zone A1 has Base Flood Elevations determined.
ZONE AR
ZONE AO
ZONE AO-AR
ZONE A
ZONE A1
ZONE V
ZONE AH
OTHER FLOODED AREAS
Area of 0.2% annual chance flood; areas of 1% annual chance flood with Federal flood protection system under construction; no Base Flood Elevations determined.
Area of 0.2% annual chance flood; areas of 1% annual chance flood with Federal flood protection system that was subsequently decertified. Zone AR has Base Flood Elevations determined.
Area of 0.2% annual chance flood; areas of 1% annual chance flood with Federal flood protection system that was subsequently decertified. Zone AO-AR has Base Flood Elevations determined.
Area of 0.2% annual chance flood; areas of 1% annual chance flood with Federal flood protection system that was subsequently decertified. Zone A has Base Flood Elevations determined.
Area of 0.2% annual chance flood; areas of 1% annual chance flood with Federal flood protection system that was subsequently decertified. Zone A1 has Base Flood Elevations determined.
Area of 0.2% annual chance flood; areas of 1% annual chance flood with Federal flood protection system that was subsequently decertified. Zone AO has Base Flood Elevations determined.
Area of 0.2% annual chance flood; areas of 1% annual chance flood with Federal flood protection system that was subsequently decertified. Zone V has Base Flood Elevations determined.
Area of 0.2% annual chance flood; areas of 1% annual chance flood with Federal flood protection system that was subsequently decertified. Zone AH has Base Flood Elevations determined.
SPECIAL USE AREAS (SUSAs)
SUSAs are areas that may be protected or in other ways specially managed because of flood or other reasons. They include: 
* Coastal flood zone with velocity hazard (wave action); Base Flood Elevations determined.
* Coastal flood zone with velocity hazard (wave action); no Base Flood Elevations determined.
* Coastal flood zone with velocity hazard (wave action); no Base Flood Elevations determined. Area to be protected from 1% annual chance flood by a Federal flood protection system under construction; no Base Flood Elevations determined.
* Coastal flood zone with velocity hazard (wave action); Base Flood Elevations determined. Area to be protected from 1% annual chance flood by a Federal flood protection system that was subsequently decertified; no Base Flood Elevations determined.
* Coastal flood zone with velocity hazard (wave action); Base Flood Elevations determined. Area to be protected from 1% annual chance flood by a Federal flood protection system that was subsequently decertified. Zone A has Base Flood Elevations determined.
* Coastal flood zone with velocity hazard (wave action); Base Flood Elevations determined. Area to be protected from the 1% annual chance or greater flood. Zone A1 has Base Flood Elevations determined.
* Coastal flood zone with velocity hazard (wave action); Base Flood Elevations determined. Area to be protected from the 1% annual chance or greater flood. Zone A has Base Flood Elevations determined.
* Coastal flood zone with velocity hazard (wave action); Base Flood Elevations determined. Area to be protected from the 1% annual chance or greater flood. Zone AO has Base Flood Elevations determined.
* Coastal flood zone with velocity hazard (wave action); Base Flood Elevations determined. Area to be protected from the 1% annual chance or greater flood. Zone AR has Base Flood Elevations determined.
* Coastal flood zone with velocity hazard (wave action); Base Flood Elevations determined. Area to be protected from the 1% annual chance or greater flood. Zone AO-AR has Base Flood Elevations determined.
* Coastal flood zone with velocity hazard (wave action); Base Flood Elevations determined. Area to be protected from the 1% annual chance or greater flood. Zone AE has Base Flood Elevations determined.
* Coastal flood zone with velocity hazard (wave action); Base Flood Elevations determined. Area to be protected from the 1% annual chance or greater flood. Zone V has Base Flood Elevations determined.
* Coastal flood zone with velocity hazard (wave action); Base Flood Elevations determined. Area to be protected from the 1% annual chance or greater flood. Zone AH has Base Flood Elevations determined.

COASTAL BARRIER RESOURCES SYSTEM (CBRS) AREAS

COASTAL FLOOD ZONES

Coastal flood zone with velocity hazard (wave action); Base Flood Elevations determined.
Coastal flood zone with velocity hazard (wave action); no Base Flood Elevations determined.
A Coastal flood zone with velocity hazard (wave action); no Base Flood Elevations determined. Area to be protected from 1% annual chance flood by a Federal flood protection system under construction; no Base Flood Elevations determined.
A Coastal flood zone with velocity hazard (wave action); Base Flood Elevations determined. Area to be protected from 1% annual chance flood by a Federal flood protection system that was subsequently decertified; no Base Flood Elevations determined.
A Coastal flood zone with velocity hazard (wave action); Base Flood Elevations determined. Area to be protected from 1% annual chance flood by a Federal flood protection system that was subsequently decertified. Zone A has Base Flood Elevations determined.
A Coastal flood zone with velocity hazard (wave action); Base Flood Elevations determined. Area to be protected from the 1% annual chance or greater flood. Zone A1 has Base Flood Elevations determined.
A Coastal flood zone with velocity hazard (wave action); Base Flood Elevations determined. Area to be protected from the 1% annual chance or greater flood. Zone A has Base Flood Elevations determined.
A Coastal flood zone with velocity hazard (wave action); Base Flood Elevations determined. Area to be protected from the 1% annual chance or greater flood. Zone AO has Base Flood Elevations determined.
A Coastal flood zone with velocity hazard (wave action); Base Flood Elevations determined. Area to be protected from the 1% annual chance or greater flood. Zone AR has Base Flood Elevations determined.
A Coastal flood zone with velocity hazard (wave action); Base Flood Elevations determined. Area to be protected from the 1% annual chance or greater flood. Zone AO-AR has Base Flood Elevations determined.
A Coastal flood zone with velocity hazard (wave action); Base Flood Elevations determined. Area to be protected from the 1% annual chance or greater flood. Zone AE has Base Flood Elevations determined.
A Coastal flood zone with velocity hazard (wave action); Base Flood Elevations determined. Area to be protected from the 1% annual chance or greater flood. Zone V has Base Flood Elevations determined.
A Coastal flood zone with velocity hazard (wave action); Base Flood Elevations determined. Area to be protected from the 1% annual chance or greater flood. Zone AH has Base Flood Elevations determined.

OTHER PROTECTED AREAS (OPAS)

The area outside of the Special Flood Hazard Area (SFHA) is divided into other floodways. These other floodways may be protected by Federal or non-Federal flood protection methods. The FIRM is intended to be used in conjunction with the Floodway Management Manual (FMW) to determine if flood insurance is available in a community. The Floodway Management Manual (FMW) is available at http://www.msc.fema.gov/floodway.html.
